OONI | Probe

Measure Internet Censorship

Why measure Internet censorship?
1 **Collect evidence**

2 **Increase transparency of what's blocked**

3 **Contribute to the world's largest open dataset on Internet censorship**

⚠ Heads-up!

Please **turn your VPN off** when running OONI Probe to help ensure more accurate test results.

Running OONI Probe **can potentially be risky** in certain countries.

OONI

Founded in 2012, the Open Observatory of Network Interference (OONI) is a non-profit free software project documenting Internet censorship around the world.

Learn more about OONI: **https://ooni.org/**

Install OONI Probe

OONI Probe is a free software app that **measures Internet censorship**, such as the blocking of websites and instant messaging apps (e.g., WhatsApp).

GET IT ON **Google Play**   Download on the **App Store**

GET IT ON **F-Droid**   GET IT ON **Desktop**

Enable **Automated testing** and contribute measurements every day!
